

### NOW THAT I HAVE SUBMITTED MY THESIS, WHAT HAPPENS NEXT?

Once you have completed your Honors Thesis you will sign an author agreement form and return it to the Honors College. The author agreement form indicates that you understand the policies therein and provides you the opportunity to have your thesis preserved electronically in the MTSU institutional repository called JEWLScholar.

#### Benefits of submitting your work include:

- **Stable URL that you can add to your resume, send to prospective employers or graduate programs**
- **An opportunity to showcase the outstanding work you've done**
- **Usage statistics which tell you how many times your work is viewed by others**
- **The potential to reach a worldwide audience**
- **Show prospective students the type of research opportunities at MTSU**

After your thesis has been approved, it is uploaded to JEWLScholar. You will see a confirmation email, similar to the following:

The email lists the title of the thesis, the collection it is in, and a link to its location in JEWLScholar.

You can then **copy/paste that link into an email and share** it with professors or prospective graduate programs or employers who may require a writing sample.

### NOW THAT MY THESIS IS AVAILABLE IN JEWLSCHOLAR, HOW CAN I USE IT?

The link in the confirmation email takes you to the landing page (homepage) of your student thesis.

In 1998, MTSU's honors program, which had begun in 1973, became an Honors College. Just a few years later, with the help of generous alumni and friends, the College moved into a state-of-the-art building, that is now a central part of East campus. While the physical facilities have improved immensely, the College maintains its mission of providing an undergraduate education of exceptional quality and value to a small but diverse student population deeply committed to scholarship.

To fulfill this mission, the Honors College fosters the academic excellence and nurturing environment of a small, select, private, liberal arts college within the setting of a major university. The free exchange of ideas and the opportunity to learn from one another in small classes taught by expert faculty make the Honors College experience rich and meaningful.

We offer Buchanan Fellowships, Honors Transfer Fellowships, and other awards to students who would like to join us, and we, in turn, work diligently to advance the careers of students who are here. For each of the last two years, the College has had one or more science students who have won the prestigious Goldwater Scholarship. For each of the last three years, we have had two or more students win prestigious Fulbright Scholarships for study abroad. Within the last several years, one of our students was appointed to the USA Today All-American Academic Team. Others have distinguished themselves in mock trial, in student government, and in other activities.

The College supports students who want to study abroad as well as those who want to present their scholarly research. Last year over 60 students wrote theses and graduated with honors.

The College is the home of an award-winning literary magazine and a journal of undergraduate research. We also work closely with the Honors Student Association and the Phi Kappa Phi and Omicron Delta Kappa honor societies.
